Zha Zha is one of the best mothers we have ever seen.

She was imported in utero from Chile so we don't know a lot about her background. She has produced both brown and grey offspring. Zha Zha's 3-year old fleece placed at the AOBA National Conference. A real easy-keeper as we call girls like this in this business. Her '07 cria, Chaquita's fine, dense fleece and outstanding conformation has earned her a spot on our spring showstring.
